

# FAST FACTS ABOUT SA'S NEW WASTE STRATEGY

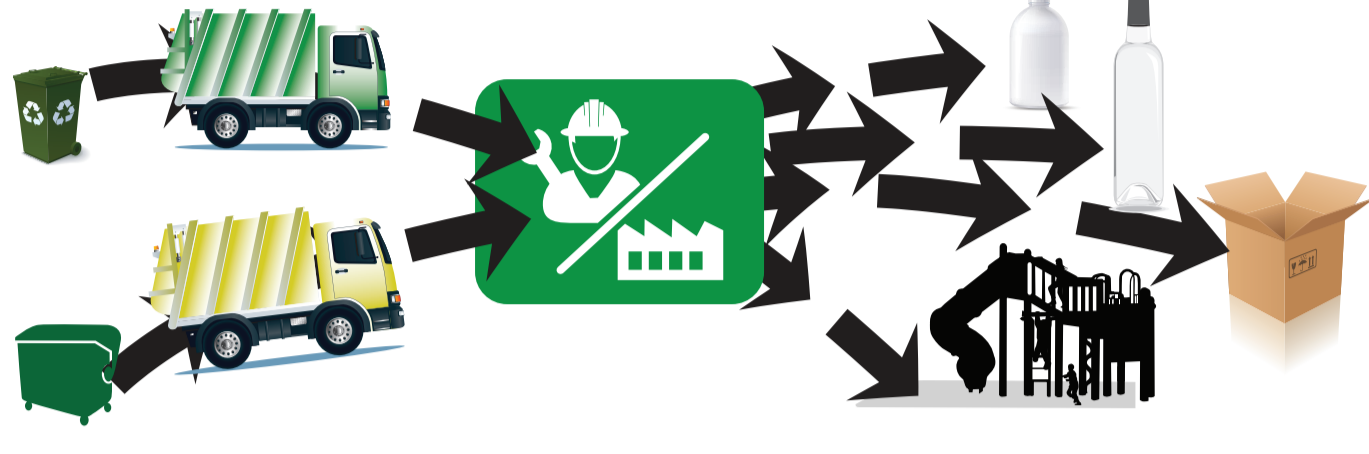

Innovation, technology, economic growth  
- the heart of this strategy

## 1 THE WASTE MANAGEMENT INDUSTRY IS A MAJOR PLAYER IN THE ECONOMY

**\$1 BILLION**  
ANNUAL TURNOVER

## 2 DIVERTING WASTE FROM LANDFILL CREATES JOBS

10,000 tonnes of waste recycled = 9.2 direct FTE jobs created

10,000 tonnes of waste sent to landfill = 2.8 direct FTE jobs created

## 3 OUR RECYCLING RATES ARE AMONG THE BEST IN THE WORLD

Helped divert more than **3.59** million tonnes of material from landfill in 2013-14

This is one of the highest diversion rates in Australia

## 4 IT'S THE PATH TOWARDS MEETING OUR TARGET OF REDUCING WASTE TO LANDFILL

## 5 OUR NEW WASTE TARGETS FOR 2020

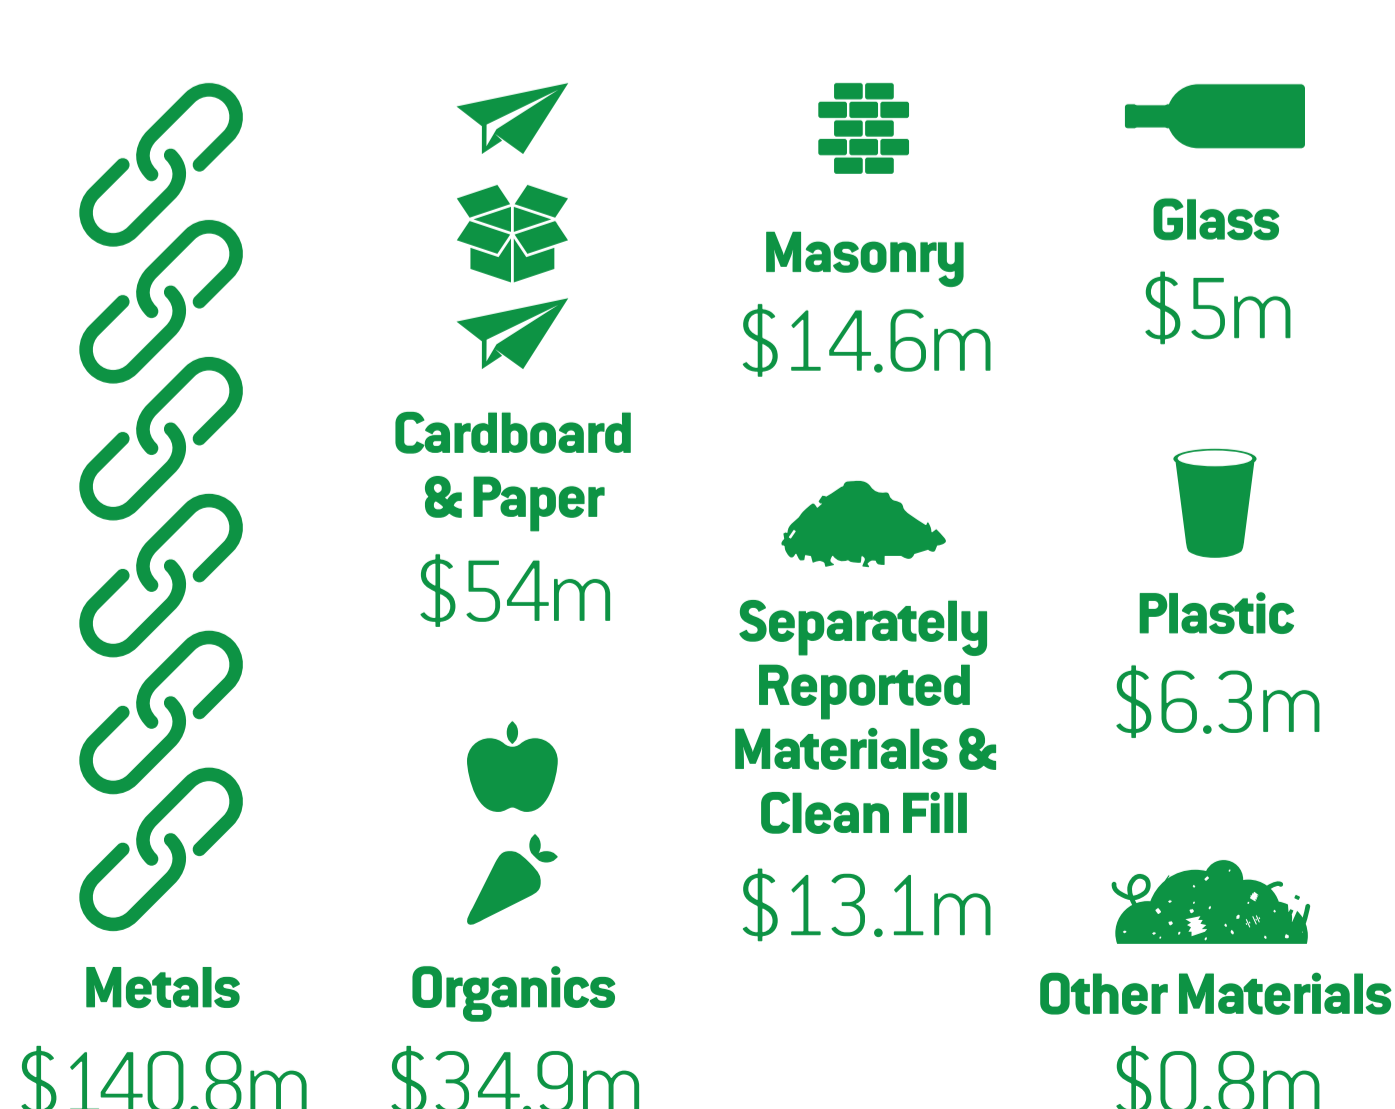

## 6 THIS WASTE STRATEGY WILL HELP IMPROVE OUR HEALTH, OUR ENVIRONMENT AND OUR ECONOMY

Our resource recovery track record for 2013-14 is impressive resulting in these savings:

## 7 RESOURCE RECOVERY RESULTS IN ECONOMIC BENEFITS

The total direct market value of resource recovered materials in 2013-14 was \$270 million.
